1. Overview of EIT Urban Mobility

EIT Urban Mobility, supported by the European Institute of Innovation and Technology (EIT), acts to accelerate positive change on mobility to make urban spaces more liveable.

EIT Urban Mobility is an initiative of the European Institute of Innovation and Technology (EIT). Since January 2019 we have been working to encourage positive changes in the way people move around cities in order to make them more liveable places. We aim to become the largest European initiative transforming urban mobility. Co-funding of up to € 400 million (2020-2026) from the EIT, a body of the European Union, will help make this happen.

*We create systemic solutions that will **move more people around the city more efficiently and free up public space.***

*We bring **all key players in urban mobility together** to avoid fragmentation and achieve more.*

*We **engage cities and citizens** from the word go, giving them the opportunity to become true agents of change.*

The EIT Urban Mobility S.L delivers breakthrough innovations to the market and breeds entrepreneurial talent for economic growth and improved quality of life in Europe. It does this by mobilizing a pan-European ecosystem of more than 50 top European corporations, SMEs, start-ups, universities, and research institutes constituted into the EIT Urban Mobility Association.

As a Knowledge and Innovation Community (KIC) of the European Institute of Innovation and Technology (EIT), the EIT Urban Mobility S.L is focused on entrepreneurship and is at the forefront of integrating education, research, and business by bringing together students, researchers, engineers, business developers and entrepreneurs. This is done in a pan-European network of Co-Location Centers (CLCs), 5 Limited Liability Companies respectively based in Germany, Czech Republic, Denmark, the Netherlands, and Spain.

We create systemic solutions that will move more people around the city more efficiently and free up public space.

We bring all key players in urban mobility together to avoid fragmentation and achieve more.

1.1. About EIT Urban Mobility Academy Competence Hub

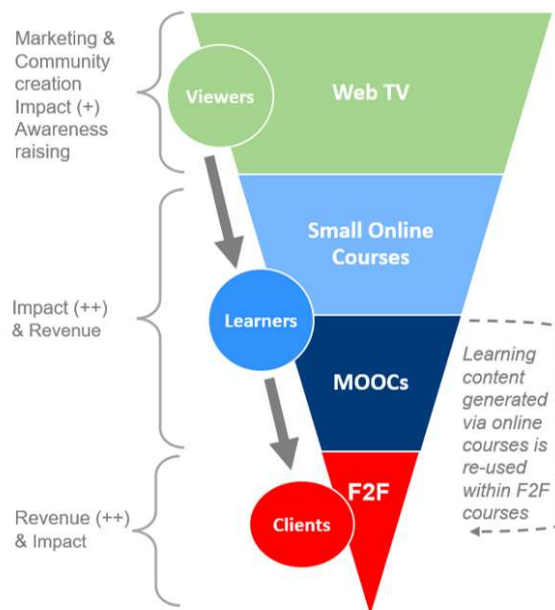

The webpage of EIT Urban Mobility Academy is <https://www.eiturbanmobility.eu/academy/>

Our Academy is a collaborative arena for lifelong learning, helping to build critical capabilities for innovation and transformation. We are training the next generation of urban mobility practitioners, needed by the urban mobility ecosystem of the future. Our programs are intersectoral, interdisciplinary, international, and entrepreneurial.

The Competence Hub is the Professional Training Unit within EIT Urban Mobility Academy. Given the many digital and ecological transformations that the mobility sector and European cities must overcome, EIT Urban Mobility Academy’s Competence Hub develops high - quality, innovative, and adaptable trainings for forward - thinking professionals and organizations.

The Competence Hub provides a customized and accessible way for busy professionals — people working for city authorities, public institutions, companies, or start - ups – to learn about the latest topics in mobility and transport.

It operates using a funnel - based freemium model, with four levels and a blended approach to learning. While the first two levels offer easy access and up - to - date knowledge for a broad audience, the third and fourth levels are more tailored and deal with specific projects or topics.

The four layers are:

EIT Urban Mobility Academy WebTV: The WebTV is a compilation of short videos (1 to 10 minutes) produced and diffused on a regular basis.

The aim of the WebTV is to connect with a high volume of urban mobility professionals from all sectors, by producing videos that provide short/introductory answers to the many questions they ask themselves when facing new professional challenges or responsibilities and try to research by browsing the internet. See our WebTV videos [here](#), hosted on the EIT Urban Mobility YouTube channel, in a dedicated playlist.

- **E - courses:** our e - courses are fully online asynchronous training courses so that each learner can take/complete them whenever they wish. They fall into 2 categories:

- o **Short Online Courses (SOCs):** These short online courses (30 minutes to 5 hours to complete, over a period of few days or weeks) are developed around mobility topics for professionals that are not covered by existing training programmes and institutions. Our SOCs provide compelling learning contents on important urban mobility issues, trends, tools, etc. The content is fully available for free, so that many urban professionals can benefit from these courses, discover the value that the Competence Hub can bring to them, and leverage our SOCs to become better professionals.

- o **Massive Open Online Courses (MOOCs):** The Competence Hub also offers a second category of e - courses, our “MOOCs for professionals” (10 to 20 hours to fully complete, over a period of a few weeks to months). These longer and more comprehensive e - courses provide more advanced knowledge yet maintaining a strong hands - on and applied focus that urban mobility professionals are looking for. The subjects/topics that are addressed are identified and produced based on the analysis of the knowledge gap within the urban mobility market (public and private sectors), the existing online learning solutions in the professional learning market that are already available, and the appetite/interests for certain specific topics expressed by our target audiences and current learner community.

The majority of our e - courses are available on the Competence Hub ’ s e - learning platform: www.urbanmobilitycourses.eu. We also have some e - courses available on FutureLearn (EIT Urban Mobility account) as well as Coursera (EIT Urban Mobility Partner Accounts).

- **Face - to - face synchronous courses:** In this fourth/final level of this funnel, we build “custom” online/on - site/blended courses for urban mobility organisations or for specific cohorts of mobility professionals, in order to allow them to overcome specific challenges. These courses are primarily delivered synchronously and generate revenue. By leveraging our unique community of partners (top European universities, innovation centres and consultancies) and experts, we probe a wide variety of course topics and formats with cities, mobility companies, and transport authorities. We then replicate/ upgrade/upscale (at a national and/or European level) those courses that generate the highest levels of impact/satisfaction and that can best contribute to EIT Urban Mobility’s financial sustainability.

In 2020 and 2021, around 96 WebTV videos, 19 SFOCs, 11 MOOCs and 7 F2F trainings were developed in collaboration with many European partners (universities, innovation centres, consultants, experts, etc.) and address a wide variety of sustainable urban mobility topics/challenges.

2. General objectives and scope of work

2.1. General objectives

By the present procurement procedure, the EIT KIC Urban Mobility S.L. hereby being referred to as “EIT UM” is aiming to identify a supplier capable of designing and delivering two multiannual face-to-face (F2F) training courses on urban mobility, for urban mobility professionals. More specifically, the first course (1) is to address the topic of real estate development and mobility, while the second course (2) is to address the topic of virtual reality and digital twins. Both courses must be designed to take place in the francophone Benelux (Belgium, the Netherlands, Luxembourg).

The general objective of the course on real estate development and mobility (1) is to equip anyone involved in the development of a new real estate project with the fundamentals of mobility. Real estate developments, whether residential, economic or recreational, have a major impact on the way the territory is organized and on the way people travel, once the real estate project is implemented. However, the impacts of travel related to a such project are rarely assessed before the project is designed, both in terms of its location and the urban structure of the parcel to encourage walking, cycling or access to public transport. From the choice of project location and impact assessment to urban planning regulation and the development of alternative modes of transport, this course should address the topic comprehensively and target all stakeholders involved in such projects (real estate developers, land use and land development agencies, public transport companies, other mobility providers, local authorities etc.).

The general objective of the course on virtual reality and digital twins (2) is to develop or improve the capabilities of transport practitioners to upscale solutions for sustainable mobility in cities, by utilising 3D visualisation tool allowing for real-time data simulations contributing to resource-efficient impact analysis and participatory planning, among others. The rapid development of 3D visualization technologies and a growing interest in digital twins in the field of urban management has been proven very useful in the development of public space projects such as new public transportation lines, bicycle facilities or pedestrianization of streets and squares. At the same time, barriers in adoption of virtual reality technology in urban planning, such as the high cost of software and hardware, the digital skill gap or social acceptance, have been identified. This course should therefore be designed to run as a pilot programme allowing transport professionals to understand the benefits of using such novel technology in the daily work, and how to deploy it on real problems. The pilot nature of this course will also affect the way the business model will be designed (see details under 2.2)

The format of both courses is to be primarily synchronous, held either online (interactive digital workshop sessions), “on-site”, or in a blended online-onsite format. The courses must also be replicable/scalable so they can generate additional revenue over the coming years and thereby become a component of EIT Urban Mobility Competence Hub’s Financial Sustainability strategy. The proposal should therefore present

a detailed business and financial sustainability plan covering the period from 2022 to 2026 (see details in 2.2.).

2.2. Detailed scope of work

The proposal and the scope of work to be presented should demonstrate the supplier's ability to support EIT Urban Mobility Competence Hub in the creation of both the following two face-to-face courses in the context of Francophone Benelux:

- Course 1 on the topics of real estate development and mobility
- Course 2 on the topic of virtual reality and digital twins.

The supplier will demonstrate that the design and delivery of the course can be replicated/upgraded/upscaled in French and/or English-speaking target audiences in urban areas across any of the francophone Benelux countries (to start with), and beyond (mainly France and possibly other francophone countries), in order to best contribute to strategic goals of the EIT, and the EIT Urban Mobility's financial sustainability.

To do so, the scope of work illustrated in the proposal should cover the following elements. The supplier is also encouraged to include any other additional information or suggestions, considered relevant.

Learning outcomes and impacts: The learning outcomes of the course should be clearly identified and defined indicating what the participants should be able to know or do upon successful completion of the course. What will the participants learn in terms of knowledge, skills, etc.? What will she/he be able to do after the course that she/he was not capable to do before? How will a learner benefit from following the course and how can these benefits be measured/materialized?

Methodology: The supplier will provide a clear explanation of which type of methodologies will be used in the course, aimed at engagement and thus successful learning and completion of the course. Specifically, the proposal should outline what formats, activities, and tools will be used in the course and what is their role in reaching a) learning outcomes b) engagement, i.e. lectures, exercises/workshops, field visits/trips, case studies, online support tools, online activities, specific or innovative learning methods, gamification etc.

Programme directors/speakers: The F2F courses are led by one or several Programme director(s) with the necessary knowledge and experience to design and impart the course in French and English and/or identify the necessary speakers able to deliver to the target audience. The Programme director's expertise may be demonstratable by academic or professional credentials, or a mixture of both. The proposal will clearly show the Programme director's track record in building relevant and impactful training activities that equip professionals with the intended knowledge and skills. Furthermore, the proposal will elaborate the experience of the Programme director and the trainers\speakers involved in the trainings. It is important that at least one Programme director be a recognized professional within the fields of each course.

Content delivery: If there are any associated recurrent costs of involving the Programme directors and/or other academic supervisors (mentors, tutors, etc.), they should be clearly specified within the proposal.

Once the course has been developed and validated during the operations of the first cohort, these recurrent costs must be fully covered by the revenue the course will generate. The proposal should describe in detail how will this be achieved.

The learning must be practical and applicable (as opposed to an overwhelming academic/conceptual focus) and close to the real work-related topics confronted by the participants. Important learning concepts within each learning module must be properly illustrated.

The courses should include interactive moments and workshops to ensure a dynamic, participative, and diversified learning experience. How this will be achieved needs to be explained in the proposal (e.g. workshops, exercises, moderated discussions, the use of online tools, gamification, etc.).

Learning modalities: The courses should be based on different learning modalities. Contextual learning as well as different interactive learning experiences should be part of the course, to make learning more interesting and impacting. Workshops, field visits, real-life case and business studies, and gamification are highly recommended.

When the learning is taking place in a hybrid format or completely online, the supplier will ensure that the trainers and the EIT UM review the instructional design of the course based on the provided EIT UM guidelines.

Target audience: The supplier will ensure the courses are customized and targeted towards a specific audience (or various audiences). The type of audience(s) and its(/their) needs must be properly analysed and detailed in the proposal.

Participants: The supplier is to plan for 10 to 30 participants per F2F course edition, taking into consideration that a course cohort should attract enough participants for it to be financially viable/profitable. The supplier will at the same time keep in mind the group size to optimize the delivery methods, and to safeguard the quality of the learning experience through active participation and interaction.

Should the courses be delivered in an online format (synchronous), the supplier will ensure that the course size and the learning experience as a whole will be adapted accordingly including modification of the tools and activities.

Duration: The courses may range between 1 and 3 days (or between 8 and 24 hours of learning), per edition. The training activities may be divided or spread over several days/weeks. This could allow participants to reflect on what they have learnt, prepare for the following learning sessions, and do some additional/complimentary work (individual/group projects or assignments, etc.), if necessary.

If considering online synchronous learning, the duration and the modalities of the sessions are to be adjusted to the target audience, favouring shorter and more interactive scenarios. The speakers involved should already possess prior experience in delivery and facilitation of such formats.

Each course should be divided into various “learning modules” that form a structured course structure which should be pedagogically robust. A clear calendar detailing the courses length as well as a short summary of the modules planned to take place each day should be included in the proposal.

Scalability: As explained above, the courses should be designed on a model that is both scalable and replicable in different contexts/cohorts all over Francophone Benelux, and possibly other countries in Europe: if the first edition(s) of the courses work well, it should be possible to easily replicate and scale up the course in other French speaking cities and/or other European cities.

Logistics and implementation: Where and how will the courses take place? Will the courses be on-site, online, blended or both on-site and online at the same time? The implementation process and related financial implications should be clearly defined/analysed.

Branding: The supplier must ensure that all the promotional and learning materials used prior, during, and after the course include the logo of the EIT Urban Mobility as well as the logo of the provider (co-branding). All promotional and course material/content that results from EIT Urban Mobility co-funding/co-financing should comply with a series of rules and regulations (logos, banners, fonts, display, etc.) which will be detailed by the EIT Urban Mobility staff. The promotional and open-online content that is produced as part of the courses, must be reviewed and validated before the courses/content are useable by the public by the Communication team of EIT Urban Mobility.

Learning assessment: The supplier must develop a learning assessment method for measuring the achievement of the learning outcomes which results will be made available to the EIT UM at the end of the courses. A learning assessment method model will be provided by the EIT UM and can be adapted to the courses if necessary. Full access should be granted to EIT UM with respect to the data generated and to the analysis/analytics of this data, for reporting purposes.

Participant survey: The supplier ensures a standard survey for collecting the learner’s feedback will be implemented and its results will be made available at the end of the courses. A survey model will be provided by the EIT UM and can be adapted to the courses if necessary. Full access should be granted to EIT UM with respect to the data generated and to the analysis/analytics of this data.

Languages: The course language is French and/or in English. All connected training and promotional materials must be distributed and published in French and/or English. All reporting activities by the supplier to EIT UM on the courses must be done in English.

Business model: EIT UM will cover the costs related to the course design, development, commercialization, and implementation of the first course cohort/edition to be held in 2022. The courses must then be viable/profitable enough so to be replicated during one of various cohorts for a period of an additional 3 to 5 years, with no additional funding from EIT UM, and with the potential to generate profits to be shared with EIT UM as part of its Financial Sustainability plan.

The business model for each course can be of two types:

- 'open enrolment' courses, in which urban mobility professionals working in different entities (or unemployed) register on an individual basis and pay a participation fee to join the course (with

the possibility of providing discounts for companies sending various employees to attend the course).

- 'custom/in-company' courses, that are delivered to a specific organisation or company for a particular group of employees/stakeholders within the organisation and adjusted to the specific needs of this organisation and/or stakeholders. In this case it is the organisation/company which will cover the registration fees for all the participants.

For each course, the supplier should decide whether to opt for an open enrolment or a custom/in-company business model, depending on his analysis/understanding of the market. In each case, this choice must be specified and justified in the proposal and the business models defined/adapted accordingly. It is also acceptable for the supplier to design an open-enrolment course for year 1 and adapt it to a custom/in-company course in the following years (and vice versa) if there is enough market demand. If so, the supplier must detail when and how this will be done. At the time it is made, any change from open enrolment to custom/in-company (or vice versa) will need EIT UM's prior approval.

The supplier should therefore include/detail in the proposal, a clear business model over 3-5 years detailing for each year, the different costs per categories (course design, course development, course implementation, sales/marketing, etc.) as well as the different revenue streams (EIT UM funding, sponsors, participant fees, etc.). Each edition of the courses should be able to generate revenue, independently from the funding received by EIT UM. The part of revenue generated in 2022 and of the profit generated in the following 3-5 years that is allocated to EIT UM as part of the revenue-share model of the business plan should be detailed, realistic and viable.

Given the 'pilot' nature of the course 2 (Virtual reality and digital twins), the supplier may opt in for a 1-year collaboration framework with a 25% return of investment. Moreover, once the course is delivered, EIT UM and the supplier may decide to extend the duration of the collaboration for this course, for a maximum of 3 additional years, if mutually agreed upon. In this case the supplier does not provide the 3–5-year business model for this course. Instead, the supplier must provide a clear 1-year business model detailing, the different costs per categories (course design, course development, course implementation, sales/marketing, etc.), the different revenue streams (EIT UM funding, sponsors, participant fees, etc.) and explaining, as well as revenue-sharing scheme which will allow EIT UM to receive at least 25% of the funding provided to the supplier to design, commercialise and deliver this course, as part of EIT UM financial sustainability.

Marketing/diffusion: the proposal will include a marketing strategy for the sale of each course. Marketing strategies in which the provider itself is executing marketing and sales activities will be preferred.

The minimal requirements for facilitation of an open-enrolment course are development a course brochure and/or webpage and/or landing page and its dissemination to potential customers. The chosen artefact(s) should clearly highlight (a) what the course is about, (b) the structure of the course, (c) the key outcomes, and (d) all other practical information (dates, location, price, registration details etc.).

There are no minimal requirements for the facilitation of a custom/in-company course, though any marketing/diffusion activities planned should be detailed in the proposal and will be positively valued.

Commercialization: The provider will ensure that the courses produced comply with relevant IPR rules and regulations (background IP, copyright laws, etc.). An ownership and revenue distribution scheme should be included in the proposal. The way in which the income generated by the courses will be collected/handled/shared (by the provider, by a third party, etc.) should be detailed in the proposal.

Participant data: The Supplier will ensure that the EIT UM has the right and tools to communicate directly with all the participants of the course it co-funded/co-financed. EIT UM is to be provided the same access to the learners personal and contact data as the course provider (emails of participants and/or other contact options).

2.3. Location, timing, planning and reporting

2.3.1 Start date & period of implementation

The intended start date is, at the latest, 12 September 2022 and is expected to last, at the latest, until 15th of December 2022. The first editions of the two courses are to take place in the 4th quarter of 2022. The proposal should however propose a timeline and business plan that goes beyond 2022, for up to 2026 (see details above), for details please refer to 2.2.

EIT Urban Mobility currently has the budget to cover the needs of the present activities for the year 2022. EIT Urban Mobility intends to use the direct award procedure with the winner of the present procedure for covering the needs of additional 12 months in the course of 2023- 2024 once the budget is known and all resources of the present contract are spent.

2.3.2 Location

This project doesn't have a specific office location during the implementation – the provider should mainly provide assistance from his/her home base of operation. We intend to work under a virtual environment as an organisation. Video conferences and telephone conferences are preferred options for team meetings.

On a needed basis, the provider can be called for specific assignments either to EIT Urban Mobility or its Innovation Hubs or to its partners or any other project site designated by EIT Urban Mobility. All costs borne for such travels shall be subject to reimbursement detailed later by EIT Urban Mobility, if justified.

2.3.3 Payment terms

Available maximum fund for the requested services (design, commercialisation, and delivery of both courses) is 59,000 EUR (VAT excluded).

For each course, the payments by EIT UM to the supplier shall be made in three phases upon the acceptance of the deliverables completed:

- After the start of communications on the courses for open-enrolment courses; after receiving the written commitment of an organisation/company willing to purchase the course for custom/in-company courses (end-September) – 30%
- After delivery of the first course (November 2022) – 30%
- After course closure/review, other final tasks, and reporting activities have been successfully completed (mid-December at the latest) – 40%

2.4. Methodology of work

The supplier is requested to present the best operational structure for the management the activities she/he wished to handle as well as the relevant the staff/expert(s) that need to be involved for the successful completion of all deliverables and actions required.

The proposal should also include:

- A presentation of the organisation's experience and qualifications to meet the requirements detailed above in chapters 2.1, 2.2. and 2.3.
- Demonstration of the expertise in the topic or/and design of similar training courses.

2.5. Deliverables

The work will be delivered in phases with the submission of the following components at dates that must be agreed by both parties:

- Start of communication and promotion, when applicable – Mid September 2022
- Delivery of course content – mid November 2022
- Delivery of courses – November-December 2022
- Course closure and reporting – 15th December 2022

3. Proposal Process

3.1. Proposal Schedule

	DATE
Publication of the RfP on Website	26 August 2022
Deadline for submitting proposal	5 September 2022
Intended date of notification of award	8 September 2022
Stand still period	3 days
Intended date of contract signature	12 September 2022
Intended start date of the contract implementation	12 September 2022

3.2. Participation

Participation in this procedure is open to all interested applicants.

3.3. Submission of proposal

Proposals are requested to be emailed in written form, **in English** to the following address until **the deadline of 5 September 2022**, 16:00 Central European Time, to:

Contact name: For the attention of Mr. Gautam Rao, Head of the Competence Hub at EIT URBAN MOBILITY.

E-mail: procurement@eiturbanmobility.eu

The proposal shall contain:

- a. The technical response to the services requested (see Section 2.2: 'Detailed scope of work')
- b. The financial offer (the price for the service.) The financial offer must be presented in **EUR**. The price must be indicated as net amount, excl. VAT)

The email including the proposal from the bidder should be sent and delivered by 5 September 2022, 16:00 Central European Time.

- Proposal must be submitted in proper (legibly) scanned and non-editable PDF, which is accessible without entering a password.
- Proposal must be signed by the tenderer.
- Proposal will be deemed timely submitted, if it is received by EIT Urban Mobility by the submission deadline. All risks associated with the delay or loss of the proposal shall be borne by the Tenderer only. EIT Urban Mobility will deem proposal received after the submission deadline invalid.
- Proposal should be concise and clear. The tenderer's proposal will be incorporated into any contract that results from this procedure. Tenderer is, therefore, cautioned not to make claims or statements that they are not prepared to commit to contractually. Subsequent modifications and counter-proposals, if applicable, shall also become an integral part of any resulting contract.
- The tenderer represents that the individual submitting the natural or legal entity's proposal is duly authorized to bind its entity to the proposal as submitted. The tenderer also affirms that it has read the request for proposals and has the experience, skills and resources to perform, according to conditions set forth in this proposal and the tenderers' proposal.

3.4. Minimum requirements

The following documents and declarations are to be submitted together with the tender by the tenderer (in case of a group of tenderers, this applies to each member). In order to be considered valid, proposals must include:

- Tender Submission form and Tender declaration form (Annex 2 and 3) together with supporting documents evidencing the legal name of the Tenderer (copy of the official documents showing the name of the natural person or legal person, the address of its head office, and the registration number given to it by the national authorities);
- An administrative part including all the information and documents required by the EIT UM for the evaluation of the tender on the basis of the exclusion and selection criteria set out below;
- Bidders must provide their comments in writing to the contract agreement terms of EIT UM (Annex 1) and in case they are proposing any amendments to the terms and conditions, they have to submit their proposal in their offer. Any amendment requests after the tender submission deadline and the notification of award shall not be accepted or discussed. EIT UM is not obliged to accept any amendment requests, proposed modifications nor contract templates.

3.5. Validity of the proposal

Tenderers are bound by its proposal 30 days after the deadline for submitting the proposal or until they have been notified of non-award.

The winners must maintain its proposal for a further 30 days to close the contract.

Proposals not following the instructions of this Request for Proposal can be rejected by EIT Urban Mobility.

3.6. Additional information before the deadline for submitting proposals

The instructions to the tenderers should be clear enough to avoid the tenderers having to request additional information during the procedure. In case the tenderer is in need of additional information, please address it to the address below.

Contact name: for the attention of Mr. Gautam Rao, Head of the Competence Hub at EIT URBAN MOBILITY.

E-mail: procurement@eiturbanmobility.eu

EIT Urban Mobility has no obligation to provide clarification if decides.

3.7. Cost for preparing proposals

No costs incurred by the tenderers in preparing and submitting the proposal are reimbursable. All such costs must be borne by the tenderer.

3.8. Ownership and confidentiality of proposals

EIT Urban Mobility retains ownership of all proposals received under this tendering procedure. Proprietary information identified as such, which is submitted by tenderer in connections with this procurement, will be kept confidential.

The potential or actual supplier should accept that during the implementation of the contract and for four years after the completion of the contract, the CA has the right for the purposes of safeguarding its financial interests that the proposal and the contract of the supplier may be transferred to internal as well as external audit services.

3.9. Clarification related proposals

After submission of the proposal, it shall be checked if it satisfies all the formal requirements set out in the proposal dossier. Where information or documentation submitted by the tenderer is or appears to be incomplete or erroneous or where specific documents are missing, the CA may request the tenderer

concerned to submit, supplement, clarify or complete the relevant information or documentation within an appropriate time limit.

3.10. Negotiation about the submitted proposal

After checking the administrative compliance of the tenderer, EIT Urban Mobility can negotiate the contract terms and conditions with the tenderer. In this negotiation, EIT Urban Mobility will ask the tenderer to adjust the proposal or specific sections of the proposal within an appropriate time limit.

4. Evaluation of proposals

4.1. Exclusion criteria

The Tenderers will be excluded from participation in the current procedure, if:

- a) it is bankrupt, subject to insolvency or winding-up procedures, where its assets are being administered by a liquidator or by a court, where it is in an arrangement with creditors, where its business activities are suspended, or where it is in any analogous situation arising from a similar procedure provided for under national laws or regulations;
- b) it has been established by a final judgment or a final administrative decision that the Tenderer is in breach of its obligations relating to the payment of taxes or social security contributions in accordance with the applicable law;
- c) it has been established by a final judgment or a final administrative decision that the Tenderer is guilty of grave professional misconduct by having violated applicable laws or regulations or ethical standards of the profession to which the Tenderer belongs, or by having engaged in any wrongful conduct which has an impact on its professional credibility where such conduct denotes a wrongful intent or gross negligence, including, in particular, any of the following:
 - i. fraudulently or negligently misrepresenting information required for the verification of the absence of grounds for exclusion or the fulfilment of selection criteria or in the performance of a contract;
 - ii. entering into agreement with other Tenderers with the aim of distorting competition;
 - iii. violating intellectual property rights;
 - iv. attempting to influence the decision-making process of the contracting authority during the procurement procedure;

- v. attempting to obtain confidential information that may confer upon it undue advantages in the procurement procedure;
- d) it has been established by a final judgment that the Tenderer is guilty of fraud, corruption or money laundering.

4.2. Award criteria

The EIT UM will award the contract to the tenderer who submitted the most advantageous technical and financial proposal based on best value for money based on the following criteria (including the weighting assigned to them). The quality of each proposal will be evaluated in accordance with the below mentioned award criteria.

The award criteria will be examined in accordance with the requested service/support indicated in Section 2 of the document, and ensure best value for money by applying the below equation:

The technical score is calculated based on the assessment rating below:

DESCRIPTION	SCORE
<p>EXPERIENCE</p> <p>Description of experiences and examples of working on both topics: real estate development and mobility; virtual reality and digital twins (see 2.1 to 2.3 above). Experience in designing and developing synchronous face-to-face courses.</p> <p>> Experience in developing and running face-to-face training programmes in French and in in English in francophone Benelux and internationally. Minimum experience: 1-3 years 2 points, 3-5 years: 5 points, 5-10 years: 10 points.</p> <p>> Experience in consulting local authorities and corporate clients on both topics: real estate development and mobility; virtual reality and digital twins. 1-3 years 2 points, 3-5 years: 5 points, 5-10 years: 10 points.</p> <p>> Experience in consultancy in the field of sustainable urban mobility: 1-3 years 2 points, 3-5 years: 5 points, 5-10 years: 10 points.</p> <p>EIT Urban Mobility will rank the bids based on the received information based on the level of detail, in harmony with the Section 2 and based on international practices.</p>	<p>Max. 30 points</p>

<p>QUALITY</p> <p>Quality of the offer and organization of service (as described in Section 2.2 and 2.3) should include, but is not limited to:</p> <ul style="list-style-type: none"> > Technical components of the course (description, module structure, experts/teaching, learning modalities, calendar, etc.): the highest ranking will receive 10 points, 2nd 5, 3rd 3, 4th 1. > Commercial components of the course (need/target audience/market analysis, commercial strategy, marketing and sales actions, canals, calendar, etc.): the highest ranking will receive 10 points, 2nd 5, 3rd 3, 4th 1. > Business plan (1–5-year forecasts/vision of costs, revenue, profits, and profit share with EIT UM): the highest ranking will receive 10 points, 2nd 5, 3rd 3, 4th 1. <p>EIT Urban Mobility will rank the bids based on the received information based on the level of detail, in harmony with the Section 2 and based on international practices.</p>	<p>Max. 30 points</p>
--	-----------------------

The applicable award criteria will be weighted as follows:

- A. Technical content: 80%
- B. Financial offer: 20%

Aggregate evaluation and scoring:

- A. Technical content (maximum weighted score: 80%)
 - Evaluation of the technical content will be carried out following the below sub-criteria:
 - I. Technical capacity of the Tenderer (maximum score: 60)
- B. Financial offer (maximum weighted score: 20%)
 - The financial offer must be presented in EUR. Prices must be indicated as net amount, excl. VAT.
 - The lowest offered price shall receive the highest score (20), others shall be calculated in relation to that in linear equation.

4.3. Selection of the suppliers

The final selection of the supplier will be based on the best price-quality ratio principle. The best price-quality ratio is established by weighing technical quality against price on an 60%/40% basis, i.e.

Total technical score: max. 60 (weight: 80%)

Total financial score: max. 20 (weight: 20%)

Total score: max. 52 (total technical score x 0,8 + total financial score x 0,2)

The winners shall be the one with the highest total score summed from technical and financial scores, and that tenderer shall be proposed for the contract.

The successful and unsuccessful tenderers will be informed in writing via email about the result of the award procedure.

4.4. Signature of contract(s)

The tenderers will be informed in writing (via email) about the result of the award procedure.

For the contract, the template in Annex 1 shall apply.

Within 3 days of receipt of the contract from EIT Urban Mobility, the selected tenderer shall sign and date the contract and return it to EIT Urban Mobility.

4.5. Cancellation of the proposal procedure

In the event of cancellation of the proposal procedure, EIT Urban Mobility will notify the tenderers of the cancellation. In no event shall EIT Urban Mobility be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a proposal procedure, even if EIT Urban Mobility has been advised of the possibility of damages.

4.6. Appeals / Complains

Tenderers believing that it has been harmed by an error or irregularity during the award process may file a complaint. Appeal should be addressed to EIT Urban Mobility. The tenderer has 3 days to file their complaint from the receipt of the letter of notification of award.

4.7. Ethics clauses / Corruptive practices

EIT Urban Mobility reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to substantial errors, irregularities, or fraud. If substantial errors, irregularities, or fraud are discovered after the award of the Contract, EIT Urban Mobility may refrain from concluding the Contract.

The suppliers shall take all measures to prevent any situation where the impartial and objective implementation of the contract is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). He should inform EIT Urban Mobility immediately if there is any change in the above circumstances at any stage during the implementation of the tasks.

4.8. Safeguarding of EU's financial interest

The potential or actual supplier should accept that during the implementation of the contract and for four years after the completion of the contract, EIT Urban Mobility has the right for the purposes of safeguarding the EU's financial interests, the proposal and the contract of the supplier may be transferred to internal audit services, EIT, to the European Court of Auditors, to the Financial Irregularities Panel or to the European Anti-Fraud Office.

Annexes

Annex 1: Service Agreement

SERVICE AGREEMENT

This Service Agreement (“Agreement”) is hereby made by and between:

EIT Urban mobility /UM/ [EIT Urban Mobility s.l.], a private limited company, having its registered office and place of business at [Pere IV, 362. 08019, Barcelona. Spain], with company registration number [Temporary registration number: 118237] and VAT number [B67513630], legally represented herein by [name of representative], acting as [position of the representative]; hereinafter referred to as: the ‘**Contracting Party**’;

and

[Company name], a private limited company, having its registered office and place of business at [Company’s address], with company registration number [Company’s registration number] and VAT number [Company’s VAT number], legally represented herein by [name of representative], acting as [position of the representative]; hereinafter referred to as: the ‘**Supplier**’;

Hereinafter jointly referred to as: the ‘Parties’ or individually as a “Party”;

WHEREAS:

EIT UM is an association whose funds are used to promote innovation, entrepreneurship and education in the field of urban mobility;

EIT UM has launched a procurement procedure for the performance of certain Services described in Annex 1 to this Agreement, via a tender referred to in Annex 1 (“**EIT UM Tender**”) and Supplier has been selected as Service Provider for EIT UM for such Services, based on Supplier’s Offer as referred to in Annex 1.

Supplier has knowledge and experience in performing the aforementioned Services described in Annex 1, on the basis of a temporary engagement (hereinafter: the ‘**Services**’);

Supplier is willing and able to provide the Services to EIT UM, as further provided for in this Agreement;

NOW, THEREFORE, THE PARTIES HAVE AGREED AS FOLLOWS:

Structure of the Agreement and precedence

This Agreement consists of the body of this Agreement and Annex 1 attached to this Agreement.

The body contains standard general provisions applicable to all Services purchased by EIT UM from Supplier under this Agreement.

Annex 1 contains the description of the Services and the time schedule for the delivery of such Services (extracted from Supplier's Offer), as well as additional specific conditions and details adapted to the type of Services purchased by EIT UM from Supplier under this Agreement.

Both the body and Annex 1, as well as the EIT UM Tender (as referred to in Annex 1) form the Agreement.

In case of discrepancy between the description of Services and time schedule in the EIT UM Tender and the description of Services and time schedule in Annex 1, the EIT UM Tender shall prevail. In case of discrepancy between a provision in the body and a provision in Annex 1, the provision in the body shall prevail unless the deviating provision in Annex 1 states expressly that it is specifically agreed by both Parties as being in deviation of a specific provision of the body and refers clearly to the provision of the body concerned.

Ordering of Services, non-applicability of Supplier's (standard) terms and conditions

Supplier does not commit to provide the Services exclusively to EIT UM, unless and to the extent provided in Annex 1 for certain specific types of Services.

The contractual relationship between EIT UM and Supplier shall solely be governed by the terms and conditions of this Agreement. EIT UM is therefore not bound by and expressly rejects Supplier's general conditions of services and any additional or different terms or provisions that may appear on any proposal, quotation, price list, acknowledgment, invoice, packing slip or the like used by Supplier.

Performance of the Services, organization, quality, timely delivery, subcontracting, reporting of progress, acceptance, changes

With due observance of the other provisions of the Agreement, Supplier shall perform the Services specified under Annex 1 for EIT UM under this Agreement, within the time schedule specified under Annex 1.

Supplier agrees to perform the Services by exercising due skill, speed and care, at a level generally required of well-reputed Suppliers in the same field as the one covered by this Agreement and shall make every effort to the best of Supplier's abilities to serve the interests of EIT UM as much as possible.

Supplier is free to organise the way it provides the Services and the timing thereof autonomously and at its own discretion without supervision or authority of EIT UM, (i) provided the Services are performed accurately and diligently and in accordance with the requirements of this Agreement, including the timely delivery of the Services as specified under Annex 1, and (ii) subject to specific requirements as may be stated in Annex 1 regarding the way the Services shall be provided. Supplier may conduct its business activities from its own premises but may be requested to operate from EIT UM's premises whenever it is necessary for the performance of the Services.

Supplier shall arrange their own travel, should they need to travel in order to perform the Services. When performing the Services, Service Provider shall use its own tools and materials, work forces. Supplier shall be fully responsible for the proper execution of this Agreement in all respects.

Supplier shall use personnel who possess the qualifications and experience necessary for the performance of the Services. Additional requirements relating to personnel may be provided in Annex 1, as the case may be.

Unless otherwise specifically provided under Annex 1, Supplier may subcontract part of the provision of the Services to subcontractors, provided such subcontractors are contractually bound by similar obligations as under this Agreement, and provided Supplier has disclosed the elements of the Agreement to be subcontracted and the identity of the relevant subcontractor to the subcontracting. Supplier remains at all times responsible for the work performed by its subcontractors and for the acts, defaults and negligence of such subcontractors, and no subcontract shall create any contractual relationship between any subcontractor and EIT UM. Additional requirements relating to subcontracting may be provided in Annex 1, as the case may be.

In order for EIT UM and Supplier to monitor the proper performance of the Services throughout the Term of the Agreement, Supplier shall report to EIT UM progress of the performance of the Services, in writing, at intervals and under conditions specified under Annex 1. Supplier shall provide EIT UM with time sheets describing the tasks performed by Supplier and the time spent on each task, pursuant to the regularity provided under Annex 1 and pursuant to the time sheet template provided by EIT UM separately.

If, for whatever reason, Supplier is not able to perform the agreed Services, or is not able to meet the deadlines agreed in Annex 1, Supplier shall notify EIT UM hereof promptly in writing, and shall take any reasonable measure to mitigate the consequences of such situation, in agreement with EIT UM.

Services delivered are subject to the acceptance of EIT UM. EIT UM shall issue a Performance certificate after completion of Services. Should EIT UM fail to reject part or all of the Services provided within 15 (or other deadline set forth in Annex 1) calendar days as from such delivery, on the grounds of a lack of quality or compliance, or because of late delivery, Services shall be considered as accepted. Should EIT UM reject a Service (within the above deadline) because of lack of quality or compliance, and such failure is capable of remedy, Supplier shall re-perform the rejected (part of the) Service promptly (but no later than 5 days in absence of any further instructions) at no additional charge for EIT UM. Should such failure be not capable of remedy (given the type of Service and/or the extent of the failure) or should the delivery have occurred after an essential delivery deadline which renders the Service irrelevant or useless, the Services at stake shall be considered as rescinded, and EIT UM is not obliged to provide any compensation to Supplier for such Services.

Modifications to the Services and/or other provisions of this Agreement may only be agreed by the Parties as per the EIT UM procurement rules, i.e. if:

mutually agreed in writing, and

the need for modification has been brought about by circumstances which a diligent contracting entity could not foresee; and

the modification does not alter the overall nature of the contract; and

any increase in price is not higher than 25 % of the original value of the Agreement. In addition, if several successive increases in price would be agreed, the total cumulating of such successive increases shall not exceed 25% of the original value of the Agreement; and

modifications above 10% of the original value of the Agreement should only amend specific conditions of the Agreement and be made by way of an amendment to this Agreement signed by both Parties.

The Parties designate the following contact persons for communication with respect to this Contract:

For EIT UM: For Service Provider:

Compensation, invoicing and payment, expenses

Supplier is entitled to charge, in respect of Supplier's Services as described under Annex 1, the compensation specified in Annex 1 per Service.

Supplier may only charge the amounts under Section 4.1. corresponding to the delivered Services, after acceptance of such Services by EIT UM.

Further, Supplier may only charge the amounts under 4.1. subject to (i) EIT UM having received a correct invoice bearing the essential elements below, (ii) all relevant Progress Reports relating to the delivered Services so invoiced having been properly delivered to EIT UM in a timely manner and accepted by EIT UM in writing (as the case may be).

An invoice shall be considered as correct when containing the following essential elements:

the name and address of Supplier

the VAT identification number of Supplier

the VAT identification number of EIT UM

the name and address of EIT UM

the invoice number

the invoice date

the date on which the Services were supplied (provided EIT UM S has accepted them pursuant to this Agreement)

the quantity and type of goods supplied (if applicable)

the nature and type of Services supplied

the following data for every VAT tariff or exemption:

the price per piece or unit, excluding VAT

any reductions that are not included in the price

the VAT tariff that has been applied

the cost (the price excluding VAT)

in case of advance payment: the date of payment, if this is different from the invoice date

the amount of VAT

By deviation to Section 4.2., Supplier may charge the amounts under Section 4.1., at the beginning of each (quarterly, monthly or other) period specified in [Annex 1](#), if such alternative is specifically agreed by EIT UM in [Annex 1](#). In such a case, requirements of Section 4.3. shall apply to each regular invoice.

The payment term applying to Supplier invoices fulfilling the requirements of this Section 4 is fixed in [Annex 1](#).

All amounts corresponding to the compensation per Service, as fixed in [Annex 1](#), shall be fixed tariffs, which may not be revised during the Term of this Agreement, unless specifically provided otherwise in [Annex 1](#) (and within the limits of the price revision mechanisms authorised under the procurement procedure).

Supplier may charge expenses to EIT UM, to the extent [Annex 1](#) provides for such possibility. Expenses shall only be paid if EIT UM has given its written approval prior to Supplier incurring said costs.

If Supplier fails to fulfil any of its obligations under the Agreement, EIT UM may suspend payment to Supplier, upon notice to Supplier.

Supplier hereby unconditionally accepts that EIT UM has the right to set off any amount that EIT UM owes to Supplier under this Agreement, with any amount Supplier owes to EIT UM under this Agreement or any other agreement.

Taxes, other contributions, no employment agreement and related indemnification

All tariffs are gross amounts but exclusive of any value added tax (VAT), sales tax, GST, consumption tax or any other similar tax ("**Taxes**").

If the Services under this Agreement are subject to any other Taxes, Supplier may charge such Taxes to EIT UM, which taxes shall be paid by EIT UM in addition to the compensation for Supplier. Supplier is responsible for paying any applicable Taxes to the appropriate (tax) authorities.

In addition to Section 5.1. and 5.2., all social security, fiscal charges or taxation of any kind and contributions of any kind including but not limited to value added, levies, withholdings, unemployment, medical insurance and insurance of any kind, pensions, national insurance contributions and social security benefits, as imposed by any law, accommodation and travel costs, living expenses, or other expenses and charges arising from this Agreement, will be the exclusive responsibility of Supplier, who must pay such taxes, charges, any kind of expenses and contributions directly to the competent authorities or employees (as the case may be) (altogether called "**Contributions**").

Supplier shall perform the Services hereunder as an independent contractor and not as an agent of EIT UM and nothing contained in the Agreement is intended to create a partnership, joint venture or employment relationship between the Parties irrespective of the extent of economic dependency of Supplier on EIT UM.

Supplier shall indemnify and keep EIT UM harmless from any claims from any authority for payment of any Contributions, including all interest charged in respect thereof, surcharges and possible administrative fines in connection with the Services performed by Supplier on the basis of the Agreement.

Intellectual property, ownership and licensing, IP infringement indemnification

"**Intellectual Property Rights**" or "**IP**" shall mean patents, utility certificates, utility models, (industrial) design rights, copyrights, database rights, trademarks, trade names and trade secrets, including moral rights and any applications, renewals, extensions, combinations, divisions, discontinuations or re-issues of the foregoing.

Unless expressly specified otherwise in Annex 1, should the performance of the Services entail the delivery of (written) advice, reports or any other materials or results ("**Deliverables**"), the ownership of any Intellectual Property Rights in such Deliverables shall be vested in EIT UM.

In addition to Section 6.1., any item provided by EIT UM (or by a third party designated by EIT UM on behalf of EIT UM) and used to perform the Services and/or embedded in the delivered Services, shall at all times remain the ownership of EIT UM S. Supplier shall have no right, title or interest in any of these items nor any trademark or trade name from EIT UM.

By exception to Section 6.1., Intellectual Property Rights owned or controlled by Supplier before the start of the performance of the Services shall remain the ownership of Supplier ("**Background IP**").

Supplier hereby grant a non-exclusive, royalty-free and fully paid-up, worldwide, irrevocable and perpetual license under its Background IP used for the performance of the Services, to EIT UM,

with the right to sublicense, for the use, make, have made, build-in, market, sell, lease, license distribute and/or otherwise dispose of the Services and/or Deliverables.

Supplier shall not, without EIT UM' prior written consent, publicly make any reference to EIT UM, whether in press releases, advertisements, sales literature or otherwise.

Unless expressly specified otherwise in Annex 1,

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, partners, contractors and employees in respect of any and all claims, damages, costs and expenses (including but not limited to loss of profit and reasonable attorneys' fees) in connection with any third party claim that any of the Services alone or in any combination or their use infringes any third party IPRs, or, if so directed by EIT UM, shall defend any such claim at Supplier's own expense. By "Affiliate" is meant any and all companies, firms and legal entities with respect to which now or hereafter EIT UM, directly or indirectly holds 50% or more of the nominal value of the issued share capital or 50% or more of the voting power at general meetings or has the power to appoint a majority of directors or otherwise to direct the activities of such company, firm or legal entity, including but not limitedly through a domination agreement.

EIT UM shall give Supplier prompt written notice of any such claim, provided, however, any delay in notice shall not relieve Supplier of its obligations hereunder except to the extent it is prejudiced by such delay. Supplier shall provide all assistance in connection with any such claim as EIT UM may reasonably require.

If any Services alone or in any combination, provided under the Agreement are held to constitute an infringement or if their use is enjoined, Supplier shall, as directed by EIT UM, but at its own expense: either 1) procure for EIT UM or its users the right to continue using the Services alone or in any combination; or 2) replace or modify the Services alone or in any combination with a functional, non- infringing equivalent.

If Supplier is unable either to procure for EIT UM the right to continue to use the Services alone or in any combination or to replace or modify the Services alone or in any combination in accordance with the above, EIT UM may terminate the Agreement and upon such termination, Supplier shall reimburse to EIT UM the price paid, without prejudice to Supplier's obligation to indemnify EIT UM as set forth herein.

Confidentiality, documents

Confidential Information means any and all proprietary and/or confidential data and information, such as but not limited to commercial and/or technical information, that EIT UM, its Affiliates or representatives may disclose directly or indirectly, whether in writing or any other form, to Supplier that is related to the Service, which (a) is marked as "confidential" or "proprietary" or words of similar import when disclosed, and (b) is orally disclosed and is summarized and described as confidential in a writing that is delivered to Supplier within fifteen (15) days of disclosure.

During the period beginning on the Effective Date and continuing for a period of five (5) years thereafter (the "**Confidentiality Period**"), Supplier agrees not to: (i) use EIT UM' Confidential Information for any purpose other than for the Service; and (ii) disclose EIT UM Confidential Information to any third party, except to its employees and other persons under its supervision

that are operating within its organization, including without limitation, its Partners' employees who (A) have a legitimate "need to know" to accomplish the Service, and (B) are obligated to protect such Confidential Information pursuant to terms and conditions not less restrictive than those contained in this Agreement. Supplier shall protect EIT UM' Confidential Information as required hereunder using the same degree of care, but no less than a reasonable degree of care, as Supplier uses to protect its own confidential information of a like nature.

Supplier's obligations above shall not apply to any data or information that it can prove: (a) is lawfully available to EIT UM, prior to the time of receipt from EIT UM as verified by written records; (b) is or becomes publicly available without violation of this Agreement or any other obligation of confidentiality and through no act or omission of Supplier; (c) is lawfully furnished to Supplier by a third party without use or disclosure restrictions; or (d) is developed by Supplier without use of or reference to any of EIT UM' Confidential Information. Furthermore, a disclosure by Supplier that is required pursuant to any judicial or governmental proceeding shall not be considered a breach of this Agreement, provided that Supplier promptly after learning of such action shall notify, to the extent permitted by applicable law, EIT UM thereof to give Supplier the opportunity to contest disclosure or to seek any available legal remedies to maintain such information in confidence.

Supplier is not permitted - alone or with or through others – to remove, dispatch, transmit or allow any third parties to inspect, use or otherwise have access to any property belonging to EIT UM or any of its Affiliates, including but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or any copies thereof, tools, designs, products manufactured or (copies of) computer files or other data carriers, unless EIT UM has given its prior written permission to any such action.

EIT UM shall remain the owner of all property it has made available to Supplier in connection with this Agreement.

Supplier shall make all property belonging to EIT UM (or its Affiliates) such as, but not limited to any notes, drawings, letters, formulas, recipes, other documents and/or copies of such matters, tools, models, finished products, (copies of) automated files or other data carriers, which come into its possession during the term of this Agreement, available to EIT UM in good condition immediately upon initial request, but in any case on the day on which the Agreement ends.

Personal data

For the purpose of this Agreement,

"Personal Data" shall mean any and all information relating to an identified or identifiable individual, including but not limited to EIT UM current or former employees, employee family members, dependents or beneficiaries, customers, consumers, suppliers, business partners or contractors;

"Processing" shall mean any operation or set of operations performed or to be performed upon Personal Data, whether or not by automatic means, such as creation, access, collection, recording, organization, storage, loading, employing, adaptation or alteration, retrieval, consultation, displaying, use, disclosure, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction (hereinafter also referred to as a verb **"Process"**).

Where Supplier in the performance of the Agreement Processes Personal Data, then Supplier agrees and warrants that Supplier shall:

comply with all privacy and data protection law and regulations applicable to its Services;

Process Personal Data only (i) on behalf of and for the benefit of EIT UM, (ii) in accordance with EIT UM' instructions, and (iii) for the purposes authorized by this Agreement or otherwise by EIT UM, and (iv) insofar necessary for the Services rendered to EIT UM and as permitted or required by law;

maintain the security, confidentiality, integrity and availability of the Personal Data;

implement and maintain appropriate technical, physical, organizational and administrative security measures, procedures, practices and other safeguards to protect the Personal Data against (i) anticipatable threats or hazards to its security and integrity; and (ii) loss, unauthorized access to, or acquisition or use of or unlawful Processing; and

promptly inform EIT UM of any actual or suspected security incident involving the Personal Data.

To the extent that Supplier allows a (sub)contractor to process the Personal Data, Supplier shall ensure that it binds such (sub)contractor to obligations which provide a similar level of protection, but in no way less restrictive, as this Section 8.

Supplier shall, upon the termination of the Agreement, securely erase or destroy all records or documents containing the Personal Data. Supplier accepts and confirms that it is solely liable for any unauthorized or illegal processing or loss of the Personal Data, if Supplier fails to erase or destroy the Personal Data upon termination of the Agreement.

Supplier shall indemnify and hold harmless EIT UM, their officers, agents and personnel from any damages, fines, losses and claims arising out of a breach of this Section 8.

Liability, indemnification, insurance

Supplier shall indemnify and hold harmless EIT UM, its Affiliates, agents and employees, from and against all suits, actions, legal or administrative proceedings, claims, demands, damages, judgments, liabilities, interest, attorneys' fees, costs and expenses of whatsoever kind or nature (including but not limited to special, indirect, incidental, consequential damages), whether arising before or after completion of the performance of the Services covered by the Agreement, in any manner caused or claimed to be caused by the acts, omissions, faults, breach of express or implied warranty, breach of any of the provisions of this Agreement, or negligence of Supplier, or of anyone acting under its direction or control or on its behalf, in connection with Services or any other information furnished by Supplier to EIT UM under the Agreement.

Supplier warrants that it has taken out sufficient insurance against the aforementioned damage, costs and interest, or has made a sufficient provision for this purpose and is obliged to fully disclose to EIT UM immediately upon initial request all the (policy conditions of the) aforementioned insurance(s) and/or provisions. Supplier shall indemnify EIT UM and shall pay its insurance proceeds to EIT UM and furthermore indemnify for the excess amount of the total claim

of damages that is not covered by the insurance of Supplier or any other insurance. EIT UM shall be entitled to take legal action against Supplier.

Neither Party excludes or limits its liability for death or personal injury arising from its own negligence, fraud, breach of confidentiality or for any liability that cannot by law be excluded or limited.

Subject to Section 9.3 In no event shall EIT UM be liable under any theory of liability, for indirect, incidental, special, consequential or punitive damages, which includes without limitation damages for lost profits or revenues, lost business opportunities, loss of image or lost data, even if EIT UM has been advised of the possibility of such damages and in no event shall EIT UM be liable to Supplier, its successors or assigns for damages in excess of the amount due to Supplier for complete performance under the Agreement, less any amounts already paid to Supplier by EIT UM.

Subject always to Section 9.3., depending on the nature of the Services and the liability risk associated therewith, a cap to the liability of Supplier under this Agreement may apply only if expressly mutually agreed in writing in Annex 1.

Suspension, termination of the Agreement

The Agreement is entered into as from the Effective Date specified in Annex 1 and shall end by operation of law, without the requirement of prior notice of termination, on the date the last of the Services have been delivered by Supplier, accepted and paid by EIT UM (“**Term**”).

As an exception to the above, EIT UM may suspend, withdraw, dissolve or terminate this Agreement fully or partially with immediate effect without incurring any penalty or compensation if and as soon as:

Supplier breaches any of its material obligations under this Agreement and, notwithstanding a written request from EIT UM to repair the current breach and to take appropriate measures to prevent such a breach in the future, fails to comply with such a request within a reasonable deadline fixed by EIT UM in the notice; or

EIT UM, in its reasonable discretion, determines that Supplier is not able to perform the Services as required; or

Supplier fails to provide EIT UM with adequate assurance of performance following request by EIT UM; or

Supplier files a petition for bankruptcy or is declared bankrupt; or

Supplier has become unable to pay its debts as they fall due or make any special arrangement(s) or composition with its creditors;

Supplier enters into voluntary or judicial liquidation;

the business of Supplier ceases to exist or control or ownership is taken over by a third party;

as a result of the termination of the European Programme(s) which requested EIT UM to enter into this Agreement (as the case may be).

As from receipt of a termination notice from EIT UM (under any legal ground), Supplier shall take immediate steps to bring the terminated Services to a closure in a prompt and orderly manner and to reduce expenditure to a minimum.

Supplier may, after giving 14 calendar days written notice to EIT UM, terminate the Agreement if EIT UM:

Fails for more than 120 calendar days to pay Supplier the amounts due after the expiration of the payment term stated in Section 4; or

Consistently fails to meet its material obligations after repeated reminders; or

Suspends the progress of the Services or any part thereof for more than 90 calendar days for reasons not specified in the Agreement, or not attributable to Supplier's breach or default.

Safeguarding of EU's financial interest and conflict of interest

Supplier accepts without reservation that during the implementation of the Agreement and for four (4) years after the completion of the Agreement, EIT UM has the right for the purposes of safeguarding the EU's financial interests, the tender proposal and the Agreement with Supplier may be transferred to internal audit services, the EIT, to the European Court of Auditors, to the Financial Irregularities Panel or to the European Anti-Fraud Office ('safeguarding the EU's financial interests').

Supplier confirms that it shall take all measures to prevent any situation where the impartial and objective implementation of the Agreement is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). The contractor is obliged to inform EIT UM immediately if there is any change in the above circumstances at any stage during the implementation of the tasks under the Agreement.

Miscellaneous

All notices given under this Agreement shall be given in writing. Any subsequent change of address shall be promptly notified by the Party concerned to the other Party and embodied in an amendment to the preamble of this Agreement.

In the event that Supplier is prevented from performing any of its obligations under the Agreement for reason of force majeure (being an event unforeseeable and beyond the control of Supplier) and Supplier has provided sufficient proof for the existence of the force majeure, the performance of the obligation concerned shall be suspended for the duration of the force majeure. EIT UM shall be entitled to terminate the Agreement with immediate effect by written notice to Supplier, immediately if the context of the non- performance justifies immediate termination, and in any event if the circumstance constituting force majeure endures for more than thirty (30) days and, upon such notice, Supplier shall not be entitled to any form of compensation in relation to the termination. Force majeure on the part of Supplier shall in any event not include shortage of personnel or production materials or resources, strikes, not officially declared epidemic or

pandemic, breach of contract by third parties contracted by Supplier, financial problems of Supplier, nor the inability of Supplier to secure the necessary licenses in respect of software to be supplied or the necessary legal or administrative permits or authorizations in relation to the Services to be supplied.

Supplier shall not transfer, pledge or assign any of its rights or obligations under the Agreement without the prior written consent of EIT UM. Any such pre-approved, transfer, pledge or assignment shall be null and void and have no effect vis-à-vis such third party.

The rights and remedies reserved to EIT UM are cumulative and are in addition to any other or future rights and remedies available under the Agreement, at law or in equity.

Neither the failure nor the delay of EIT UM to enforce any provision of the Agreement shall constitute a waiver of such provision or of the right of EIT UM to enforce each and every provision of the Agreement.

No course or prior dealings between the parties, no course of performance, and no usage of the trade shall be relevant to determine the meaning of the Agreement and to modify the provisions of this Agreement.

No waiver, consent, modification or amendment of the terms of the Agreement shall be binding unless made in a writing specifically referring to the Agreement signed by EIT UM and Supplier.

In the event that any provision(s) of this Agreement shall be held invalid, unlawful or unenforceable by a court of competent jurisdiction or by any future legislative or administrative action, such holding or action shall not negate the validity or enforceability of any other provisions of the Agreement. Any such provision held invalid, unlawful or unenforceable, shall be substituted by a provision of similar import reflecting the original intent of the clause to the extent permissible under applicable law.

All terms and conditions of the Agreement which are destined, whether express or implied, to survive the termination or the expiration of the Agreement, including but not limited to Intellectual Property, Confidentiality and Personal Data, shall survive.

The Agreement shall be governed by and construed in accordance with the laws of the country or state in which the EIT UM ordering entity is located, as applicable.

Supplier and EIT UM each consents to the exclusive jurisdiction of the competent courts in (i) the country or state in which the EIT UM ordering entity is located; or (ii), at the option of EIT UM, the jurisdiction of the entity of Supplier to which the order was placed, or (iii), at the option of EIT UM, for arbitration in which case Section 12.12. applies. Supplier hereby waives all defences of lack of personal jurisdiction and forum non-convenience.

If so chosen by EIT UM in accordance with Section 12.11, any dispute, controversy or claim arising out of or in connection with this Agreement, or their breach, termination or invalidity shall be finally settled solely under the International Chamber of Commerce Rules of arbitration, which Supplier and EIT UM declare to be known to them. Supplier and EIT UM agree that: (i) the appointing authority shall be the ICC-International Chamber of Commerce of Paris, France; (ii) there shall be three (3) arbitrators; (iii) arbitration shall take place in the jurisdiction of the EIT UM

entity mentioned in the recitals or, at the option of EIT UM, the jurisdiction of the Supplier's entity mentioned in the recitals; (iv) the language to be used in the arbitration proceedings shall be English; and (v) the material laws to be applied by the arbitrators shall be the laws as determined under Section 12.10.

The United Nations Convention on International Sale of Goods shall not apply to the Agreement.

Subject: <Please include here the title of the procurement procedure>

TENDERER'S DECLARATION

Dear Sir/Madam,

In response to your letter of invitation for the above contract I, < Name and position of authorised representative of the firm>, hereby declare that we:

are submitting this tender for this contract. We confirm that we are not participating in any other tender for the same contract in any form (as in a consortium or as an individual candidate);

we also confirm that we shall take all measures to prevent any situation where the impartial and objective implementation of the contract is compromised for reasons involving economic interest, political or national affinity, family or emotional ties or any other shared interest ('conflict of interests'). We will inform the Contracting Authority immediately if there is any change in the above circumstances at any stage during the implementation of the tasks;

we accept that during the implementation of the contract and for four years after the completion of the contract, the supplier must keep confidential any data, documents or other material that is identified as confidential at the time it is disclosed ('confidential information');

we accept that during the implementation of the contract and for four years after the completion of the contract, the Contracting Authority has the right for the purposes of safeguarding its financial interests, the proposal and the contract of the supplier may be transferred to internal as well as external audit services.

We understand that if the information provided is proved false, the award may be considered null and void.

Yours faithfully,

<Signature of authorised representative>
